John W. Gates has formed a gas company in Chicago, wants a franchise and agrees to furnish gas for 60 cents a thousand. Senator Billy Mason must be in it.

The only street car line in operation in New Orleans in one in the suburbs where mules furnish the motive power. The strikers know enough not to fool with the mule.

The industrial depression is spreading in Germany and the cost of living becoming higher, work scarcer and wages lower. Germany is a tariff protection country, and a trust country too.

A Boston professor has proved to his own satisfaction that lightning does not strike water, so that the safest place to be when the lightning is cavorting around is down below with the fishes.

It is all right for Senator Platt, Senator Quay, Governor Odell and other party leaders to endeavor to end the coal strike, but wouldn't it have been more to their credit if they had made some effort to end it some time ago?

According to Roumanian authorities there is a "beautiful girl brigand" over there, chief of a band, who has charged to her 80 murders, 198 other crimes of violence, 648 robberies, and she is only 22 years old. What a charming hustler she must be.

They have begun again to dig up that old pot of gold that they have been digging up every year for the past four or five years. The latest found was near Houston, Texas, and was the result of a dream which a women had about twenty years ago. She remembered the dream, took her husband with her, and dug it up.

The latest surgical feat is reported from Toledo, Ohio, where the doctors equipped with a pair of very nice ears a boy who was born without any. He could hear all right, but was short on ears. The doctors fixed him up a nice pair and now it isn't easy to tell which is the prouder, the boy with his new ears or the doctors who did the job.

BAD NEGRO IN POLICE COURT.

Knocked White Boy Off Sidewalk and Then Assaulted an Officer—Other Cases Before the Mayor.

An ugly incident characteristic of days before the late unpleasantness in 1898 came to the notice of Policeman E. R. Chadwick, one of the best men on the force, Sunday afternoon. Paul Sharpless, who is said to be an offensive "railroad nigger," pushed a young white boy off the sidewalk at Sixth and Brunswick streets. Officer Chadwick saw the act and asked the negro for an explanation of his conduct, whereupon he set upon the officer, scratched him badly about the neck and made his arrest extremely difficult. Florence Williams and Georgia Snggs, two colored women living in the vicinity, urged the bad negro on with their plaudits and they, too, were arrested yesterday, charged with aiding and abetting the negro in resisting the officer.

Sharpless has employed counsel and yesterday secured a continuance of his case before the Mayor until to-day noon.

Ernest Brown, colored, arrested by Policeman W. C. Moore at Front and Dock streets, was sent over to the Superior Court by the Mayor yesterday, charged with carrying concealed weapons. He couldn't give $25 bond and went to jail for the November term.

Levi Bluefort, failed to prosecute his case against Jno. D. Bellamy, colored, for assault with a deadly weapon, and he was taxed up with the costs.

The other cases in the police court yesterday were of a trivial nature.

PERSONAL PARAGRAPHS.

— Rev. J. P. King is ill at his home, No. 13 Wooster street.

— Col. A. H. Slocomb, of Fayetteville, arrived in the city yesterday.

— Mr. and Mrs. Armond D. Myers, of Portsmouth, are visiting in the city.

— Miss Fannie Williams, of Fayetteville, is the guest of Mrs. W. H. Pemberton.

— Miss Bessie Whitney was better yesterday, after an indisposition of several days.

— Mrs. J. Wallace Carmichael has gone to Richmond to visit relatives and attend the Horse Show.

— Mr. and Mrs. Joseph E. Bunting have gone to Fayetteville, N. C., where Mr. Bunting will recuperate after several months' illness.

— Hon. Rodolph Duffy is in the city for a few days from a speaking tour in this section. He resumes his work on the stump this week.

— Mr. H. A. Daniels, one of the Press agents of the Forepaugh & Sells Bros.' circus, arrived here Sunday and after completing his work left for other points yesterday evening.

— Congressman A. C. Latimer, of South Carolina, nominee for the United States Senate from the Palmetto State, arrived in the city yesterday and will spend a few days with Mr. Geo. A. Croft at his handsome country place on Wrightsville Sound.

— Friends in the city will regret to know of the critical illness of Mr. Peter Rourk, of Shallotte, Brunswick county. His brother, Mr. W. A. Rourk, of this city, has gone to be with him. Mr. Rourk is the Democratic nominee for sheriff in Brunswick.

— Dr. J. N. Johnson, of Warsaw, who is in the city for a few days has a commission from the business men of his town to see what can be done here in the way of securing subscriptions to the capital stock for a tobacco warehouse for Warsaw. He will call upon the business men of Wilmington while here.

ACKNOWLEDGED OFFICIAL CHAMPIONS

Prize Winners in All Interstate Contests Are the Aurora Zouaves.

The Aurora Zouaves cancelled engagements covering nearly a year's time in order to return home. The boys from Illinois spent about a year in the cities of continental Europe giving their exhibitions of marvelous drilling and earned the title "Best Drilled Soldiers in the World" from the nobility and royalty of these foreign lands. Intending to remain away from home for but a few short weeks, their success was so great that offers of engagements came so fast that almost before they knew it they were consigning themselves to a long exile from their native land. As many of them had business interests at Aurora that could be not longer neglected they secured a cancellation of their engagements by agreeing to go back at some future time. Once here the management of the Adam Forepaugh and Sells Brothers combined shows made them a proposition for the present season that they could not afford to refuse, and they will be seen here with these shows when they exhibit, on Monday, October 20th.

On account 34th annual State Fair at Columbia, S. VANDERLIP'S COMING.

Arrangements for Distinguished Financier's Address to the Chamber of Commerce.

DAY'S NEWS ON THE WHARF.

Transfer of Clyde Liners—Fleet of Vessels Passed Out Sunday—Two Tramp Steamers Brought Up Kainit and Pyrites—Shipping Notes.

The Chamber of Commerce Committee on Public Entertainment met President Chadbourn in the Exchange rooms, on Princess street, yesterday and arranged for the coming of Hon. F. A. Vanderlip, of New York, on Friday, Oct. 31st. Mr. Vanderlip will address the Chamber and invited guests at a dinner at The Orton Friday evening. Tickets will be on sale for the dinner at the office of the Secretary of the Chamber in a few days at $1 each and all members are privileged to purchase tickets for their friends, if desired. The subject of the distinguished financier's address has not yet been announced. Present at the committee meeting yesterday were President James H. Chadbourn, Messrs. M. W. Jacobi, T. C. James and T. D. Meares.

The recent collision of the Clyde Liners *Apache* and *Iroquois* in Charleston harbor has made necessary several changes in schedule of steamers of the company, one of which is a transfer of the *Saginaw*, which has been coming regularly here, to the Boston and Charleston Line. The steamer *Richmond*, one of the Old Dominion boats now operated by the Clyde Line, will take the place of the *Saginaw* and will arrive today. She has both freight and passenger accommodations and has visited this port before. The Clyde Line has also chartered the steamer *Saratoga* for its Charleston and Jacksonville run.

A large fleet of vessels bound hence for different ports passed out at Southport at 1 o'clock Sunday afternoon. They were the British steamer *Baron Eldon*, for Bremen with cotton; Norwegian steamer *Europa* for Dunkirk, France, with cotton; British steamer *Plymton*, light for New Orleans; schooner *Arrow*, for Grenada, B. W. I., with lumber; schooners *John Twohy* and *J. C. Strawbridge*, for Boston with cross ties; schooner *Passadena*, for New York with cross ties and the Clyde steamer *Oneida* for New York with general cargo.

Two tramp steamers arrived yesterday afternoon. The Norwegian steamer *Linwood*, 1,056 tons, Capt. Stubbs, brought a cargo of pyrites from Pomaron for the Navassa Guano Co., and the British steamer *Holmlea*, 1,143 tons, Capt. Luke, brought kainit for discharge at the wharves of the Wilmington compress.

The steamer *Ixia* with a large cargo of pyrites for the Navassa Guano Co., went slightly aground in the upper Cape Fear, as she was proceeding up to the factory yesterday. The cargo will be lightered without great inconvenience.

NEGRO ALMOST INSTANTLY KILLED.

Car Coupler on A. C. L. Yards Horribly Crushed to Death Saturday Night.

Sol. Lewis, a young Wilmington negro living in First ward and employed at night as a car coupler on the A. C. L. yards in this city, was almost instantly killed as the result of being crushed between two cars Saturday night.

The negro went between the cars to make a coupling and was caught in his stomach between the bumpers and horribly mangled.

His father and mother live in "Brooklyn" and the remains were turned over to them for burial.

Odd Fellows' Anniversary.

Hanover Lodge No. 145, I. O. O. F., will celebrate its tenth anniversary Friday evening, Oct. 17th, after the regular lodge exercises. All Odd Fellows in the city whether members of any Lodge or not, are invited; also all Daughters of Rebekah. The meeting is not only to celebrate the 10th anniversary, but also to dedicate the new hall and endeavor to start a revival of interest among the Odd Fellows who do not attend lodge meetings. The anniversary committee is composed of N. F. Parker (chairman), Jno. E. Wood, E. F. Johnson, E. N. Penny and S. G. Hall. Sub committees have been named and the work of arrangement thoroughly systematized. Short addresses will be delivered by the Hon. John D. Bellamy, who was Grand Master at the time the lodge was instituted, Dr. A. D. McClure, Rev. John H. Hall, Mr. W. W. Yopp and others. Refreshments will be served by the Daughters of Rebekah.

THE MEMORIAL HOSPITAL.

EDITOR STAR—The average citizen has not the remotest idea of what an institution is the James Walker Memorial Hospital and what a debt of gratitude we owe to its benefactor. Every care and attention possible is given a patient whether rich or poor. The writer was always dubious as to hospitals, but after a few days' treatment here will never again hesitate as to this one. It is modern and up-to-date, and the doctors and nurses are of the highest class and vie with each other in showing attention. A PATIENT.

— Messrs. R. L. Prempert and Ernest Levy, the popular travelling men, are in the city calling on their trade.

SUPERIOR COURT YESTERDAY.

Case of Mrs. Meta H. Hullen vs. City of Wilmington—Two Other Matters Continued—The Jurors.

New Hanover Superior Court resumed its sessions yesterday morning at 10 o'clock and was occupied all day in the trial of the damage suit of Mrs. Meta H. Hullen (now Mrs. C. P. B. Mahler) against the City of Wilmington. All the plaintiff's testimony was in when court took a recess for the day at 5 P. M.

This morning at 10 o'clock witnesses for the defendant will be introduced and the case, after argument by counsel, will go to a jury, empanelled yesterday as follows: E. P. Owens, George W. Rogers, H. W. Mason, Matt J. Heyer, A. B. Brower, D. M. Lahue, J. G. King, H. B. Taylor, V. V. Richardson, T. E. Davis, J. B. Mercer and I. J. King.

Upon conclusion of the plaintiff's testimony yesterday, counsel for defendant made a motion to dismiss upon the ground that the evidence was insufficient, but the motion was overruled by Judge Bryan.

As before stated in these columns, the suit is brought to recover $1,500 and $300 rent for two years upon property of the plaintiff at the southeast corner of Front and Brunswick streets, which it is alleged was damaged to that extent by excavations made by the city in April, 1897.

The plaintiff's attorneys are Hon. John D. Bellamy and Herbert McClammy, Esq., while the defendant is represented by ex-Judge E. K. Bryan and City Attorney Bellamy. The only witnesses heard during the morning session were Mrs. Mahler, the plaintiff, and L. R. Bryant, superintendent of streets, under the Wright administration, when it is alleged the damage was wrought. In the afternoon Mr. Mahler, Mr. Andrew Smith, Mr. B. F. Hall and Valentine Howe, the colored contractor, were introduced for the plaintiff. The case will likely occupy all of to-day's session of the court again.

By agreement yesterday the case of Louisa B. Smith vs. Susan E. Moore, Ex., was continued to stand for trial at the next term of court for the hearing of civil cases. An alias summons was ordered. The case of A. G. Ricaud, receiver, vs. W. H. Chadbourn et al., was likewise continued.

The following talesmen were ordered summoned for to-day: Henry C. Bear, D. S. Bender, J. Carmer Davis, D. O. Counis, Geo. W. Greene, W. J. Howard, W. B. Howard, W. J. Croswell, J. W. Cotten, Jr., H. F. Otten, B. W. Trask, Jno. R. Utley, S. H. Fishblate, Henry Taylor, W. G. T. Keen and W. W. Hodges.

COMING OF FRANK DANIELS.

Banner Attraction of the Season is What it Promises to Be—Elaborate Stage Settings—Sale of Seats.

Each day increases the enthusiasm of Wilmington play-goers over the engagement of the celebrated comic opera king, Frank Daniels, and his great company of seventy odd persons at the Academy Thursday night, and to-morrow morning there will be a big rush for seats when the sale opens at Plummer's. The sale will commence promptly at 7 o'clock and each purchaser will be limited to a maximum of ten seats.

"Miss Simplicity," which Mr. Daniels and company are to present, will be given on a scale of magnificence. Not a piece of the Academy's scenery will be used, as the company carries all of the original New York production's elaborate stage appointments. The costumes will be simply gorgeous.

Mr. Daniels' earlier productions in "The Wizard of the Nile," "The Idol's Eye," "The Amer" and other mirthfully melodious offerings have been characterized by such emphatic and unmistakable marks of success and prosperity that there is no question as to the hearty greeting that will be extended to him during the forthcoming visit. All question as to whether or not "Miss Simplicity" is up to the standard of his earlier triumphs has been set aside by the achievement of this composition in New York, Philadelphia, Boston and other cities in which it has been thus far seen. Reliable reports from these places are to the effect that the piece offers Daniels by far the best role that he has ever had for the display of those quaint and comical methods that have won him his popularity, and the two authors, R. A. Barnet and Harry Lawson Heartz, are credited with having turned out one of the most witty and tuneful pieces of operatic literature that has recently graced the American stage. Several of the reviewers who have seen the new piece have not hesitated to assert that it is unquestionably the best that Daniels has ever had.

Daughters of Confederacy.

The State Convention, United Daughters of the Confederacy, meets to-morrow at Newbern and will continue its sessions three days. Of the Wilmington delegation, Mrs. M. S. Willard and Mrs. R. C. Cantwell will be entertained while in Newbern by Mrs. John Dunn; Mrs. Robt. Cronly and Mrs. Frank L. Huggins by Mrs. Owen H. Guion; Mrs. C. C. Brown by Mrs. J. Guion Dunn, and Mrs. W. G. Pulliam by Mrs. J. H. Benton.

The Associated Charities.

The regular quarterly meeting of the Board of Directors of the Associated Charities will be held at the office of the Association this morning at 11 o'clock.

HON. F. M. SIMMONS.

Great Speech to a Large Crowd in County Court House Last Night.

THE INDEPENDENT ALIAS.

Non-Partisan Movements Got Some Hard Knocks—A Masterly Discussion of State and National Issues—Registration Urged.

It is safe to say that no more able presentation of the political issues of the day, State and National, has been made from the Democratic hustings in North Carolina this campaign than the very able speech of the Hon. F. M. Simmons in the Court House here last night. His address gave unmistakable evidence of a deep and world-wide study of public questions and the result of that research was so woven together with the ingenuity characteristic of the man, as to round out a splendid speech, which was heard by some four or five hundred voters, including the small coterie of Independents, with the possible exception of Collector Keith.

Geo. L. Peschau, Esq., Democratic County Chairman, called the meeting to order and asked Col. George L. Morton to introduce the distinguished visitor. Col. Morton was very complimentary in his references to Mr. Simmons as five times leader of the Democratic hosts in North Carolina and Mr. Simmons began his speech by returning thanks to Col. Morton for the compliment paid him in his presentation and expressing pleasure at again having an opportunity of speaking to his fellow citizens of the city of Wilmington and county of New Hanover. He said he came to Wilmington not because he liked to talk but because he had something to tell. He would leave off preliminaries and get right down to business.

The first half hour of Mr. Simmons' speech was devoted to State questions. He referred briefly to fusion rule in North Carolina and said no State was ever cursed more severely in that particular than North Carolina. He next recited the causes which led up to the passage of the Constitutional Amendment and declared the carrying of that measure at the polls by overcoming a majority of 40,000 was the greatest accomplishment in the political history of the State. He said he would like to claim credit for that for the Democratic party, but he was afraid some "honorable" gentleman, who insisted on pitching his campaign along the lines of dividends, yards, weights and measures, would accuse him of squalling "Nigger." However, he would like to enter a mild protest without incurring the criticism that he was talking negro. He said the Democratic party had restored peace and prosperity to the State and a good feeling between the races. More mills had been built under Aycock's administration; more corporations and more enterprises had been chartered than during a corresponding period in any time. It shows that capital has confidence in the Democratic party and so long as it is in power, he would promise these enterprises that the Democratic party would do nothing to forfeit that confidence; that the business interests would have fair and equal justice in all things, but no discrimination either for or against them would be permitted. It was a cardinal principle of the Democratic party. People at large in North Carolina, he said, were eminently satisfied with the condition of affairs under the Democratic administration, with the exception of a lite squad of Republicans, who now think it is popular to parade themselves as Independent and non-partisans.

The remainder of his speech upon State issues was devoted to a brilliant defence of the State administration. The charge of extravagance was successfully refuted and the million dollar excess appropriations were shown to have been made for paying off a debt of $300,000 incurred by the Republicans and the balance was used for the sake of humanity in providing treatment for the insane, schools for the children and pensions for gallant Confederate soldiers. The creation of the offices of two extra Superior Court judges and two solicitors were explained and that act shown to have been for economy in saving the cost of expensive special terms, etc. He also showed that the creation of the single office of Insurance Commissioner at a salary of $2,000 per year resulted in a saving of enough to pay the increase in the salary of the Governor and that of the two extra judges and solicitors. The Republican charge that $17,000 had been paid out during Aycock's administration for attorneys' fees was admitted, but the speaker referred to the record to show that only $580 had been incurred by Aycock, while the rest was contracted for by Russell.

Mr. Simmons next went into a masterly and thorough discussion of national issues. The prosperity argument of the Republicans was first exploded and sent sky-high. Prosperity was shown to be world-wide. Germany, France and England, in Europe; Japan, in Asia; Argentina, in South America; and Mexico and Canada, in North America, were all shown to be blossoming like a rose; some with high tariff, some with low tariff and some with no tariff at all. Undoubtedly good laws help to make prosperity and bad laws help to bring adversity, but there may be adversity with good laws and there may be prosperity with bad laws. When the Republican party claims credit for present prosperity, because that party happens to be in power, it makes itself ridiculous. Tried by the test of the bulk of foreign trade, Great Britain is more prosperous than we are, for that little island, less than twice the size of North Carolina, had a foreign export and import trade during the past year nearly twice as large as we had. By the test of circulating medium, France was shown to be more prosperous than we are with a per capita of $37 while we have only $28. Tried by test of the increase in the per cent. of our export trade, at least six other nations are more prosperous than we are and the figures were given to support the proposition.

Going into a discussion of the tariff, Mr. Simmons said with reference to the assertion of Mr. Pritchard as to the blessing protection has afforded the lumber interests, that protection is not the cause but that it is due to the diminishing supply and the greatly increased demand in consequence of the world wide prosperity.

He also took up the trusts; charged the Republican party with insincerity in its fight against them and recommended an application of no-tariff to crush them.

An hour was devoted to National issues and it is not an injustice to other speakers who have been here this campaign, to say that Mr. Simmons outstriped them all in facts, figures and the adroitness with which they were set forth.

He concluded his great speech with another half hour to State issues, in which he paid his respects to the Independents, non partisans, etc., etc. He said that he had heard it said that the Republican party had become respectable because it has kicked out the "nigger." They may have kicked out the negro and they may have not. Ten chances to one he will bob up again, but be that as it may, they will have to "keep a kickin'" before their party is good enough for a White Supremacy Democrat to walk in. You can't convince G. Z. French that it's respectable and you can't convince ex-Governor Russell that it is all right. They wince every time their record in North Carolina is shown up.

"But," said Mr. Simmons, "I don't like this nom de plume or alias of 'Independents' or 'non partisans' that some of them are sailing around under." A man breaks jail and he always bobs up with an alias. There may be a few Democrats in these movements but generally they are sore heads—a nomination or something has slipped past them. Whenever you find one of these so-called "Independents," you find some poor wretched creature who has been in political bondage all his life and as soon as the shackles are off the ankles of the slave he makes haste to turn upon the party that gave him his liberty. "I know some negroes that have been voting for Abe Lincoln ever since the War because he freed them. That's gratitude!" dramatically exclaimed Mr. Simmons, rounding up that particular line of his argument.

Continuing he said if these "honorable" gentlemen, who are above their party, want to join the Republican party from principle; because they like the association, because they like the record of French, Melton and the others which they must assume, then let them do it like men—open and above board with none of these aliases or nom de plumes. Let them go in the day in the front door of the Republican household, and not sneak in at the back door and through the kitchen in the night time.

Closing his speech, Mr. Simmons made an appeal to the East from the West, where the lines numerically are closely drawn. He said at a sacrifice the West had heard the appeal of the East to deliver it. He urged registration in most appealing terms, and with a graceful little word of thanks to New Hanover for the handsome majority it gave him for the Senate two years ago.

LOCAL DOTS.

— Have you registered?

— Only eleven days now for registration. Old registrations don't count now.

— Clarendon Lodge K. of P. will have work in the second rank to-night.

— Unless you register you cannot vote in the November election. Remember, this is a new deal throughout.

— Miss Leonora Cantwell is in Baltimore for a few days taking special lessons under Prof. Bangert, the eminent dancing master.

— Mr. Edward F. Morse, one of the clever machine operators on the Newport News, Va., *Herald*, is in the city on his way to his old home at Beaufort, N. C., to spend a short vacation.

— It was stated on the streets yesterday that Mr. Iredell Meares, of this city, had written a letter declining the nomination for the State Senate at the hands of the "citizens" and "Conservative Democrats," of Brunswick.

— By deed filed for record yesterday J. M. Newton and others transferred to David J. Joyner and wife, tract of land containing 13 acres more or less in Cape Fear township and a part of what is known as the Maxwell tract; consideration $150.

— There were just seven persons at the Independent meeting in an office on the wharf Saturday night. Three of them are considered nothing more nor less than "old-liners" and one of them holds a Federal job by the good graces of Pritchard. The other four—Well!

REGISTER! REGISTER!!

Let Everybody Register Who is Entitled to Register.

There is an entirely new registration this year.

Your old registration will not entitle you to vote this year.

Unless you register before the books close on the 25th of October, you cannot vote this year.

The books are now open for registration and will be open for that purpose every day, Sunday excepted, until sunset Saturday, October 25th.

Let every person who is entitled to vote under the amendment register at once.

Register yourself and get your neighbors to register.

NOTE FIRST.

The adoption of the Constitutional Amendment made an entirely new registration necessary. The disfranchised negro registered in the campaign of 1900 and, if the Legislature had not provided for new registration this year, the names of all these negroes would remain on the registration books.

NOTE SECOND.

An entirely new registration this year was necessary to put the amendment in operation in this election.

NOTE THIRD.

Each Democratic paper is requested to keep this in a prominent place in the paper until the registration closes.

NOTE FOUR.

Cut this out and post it at some prominent place in the voting precinct.

"THE TIME HAS COME."

In their endeavors to humbug the people, especially the Republicans who are demanding tariff revision and trust regulation, Republican speakers and papers, as a rule, declare that the Republican party will when the proper time comes, revise the tariff on Republican lines and bring the trusts, that is, if they can discover any bad trusts, to time. But this isn't the time, they say; we are prosperous now and any "tinkering" with the tariff would alarm capital, unsettle business and do more harm than good. That's what Mark Hanna says, that's what says Speaker Henderson, who declined a unanimous nomination for Congress rather than endorse the plank of the Iowa Republican platform which demands tariff revision and trust regulation. That's what all the Dingley tariffites say.

Senator Hanna says if you favor tariff revision "where will you begin?" and answers it by saying you had better not begin at all. "Let well enough alone." "Stand pat."

Senator Lodge, addressing a meeting of a Republican club in Boston, in answering the demand for free raw materials told them it was dangerous to attempt to put some materials on the free list however desirable that might be, because when it was proposed it put one on a demand would be made for another and another, and thus the fight would begin, extend all along the line and the whole tariff question would be opened and the protective system be endangered if not destroyed.

That's the way they try to reconcile the people to the burdens they have to bear, while promising to relieve them of some of the burdens, in the good time to come, they and protected interests being the judges as to when the good time will come.

But there are some Republicans who believe the time has come, and that there will never be any better time to begin the work of tariff revision than now. Governor Cummins, of Iowa, who was one of the Republican advance guard in the movement for tariff revision and trust regulation, is one of these, and one who talks very plainly, earnestly and convincingly.

In Chicago they celebrate everything, even the disasters that give the city prominence. Last Thursday was the 31st anniversary of the "big fire" which swept away such a large portion of that city. It was celebrated with a grand banquet to which a number of eminent men and speakers were invited, among them Governor Cummins, of Iowa, who was down on a programme for a speech and took the opportunity to defend the Iowa idea and demand for tariff revision and trust curbing at the same time answering the assertion of those who say that this isn't the time to touch the tariff. After quoting from the Iowa platform, and showing just what it says and means, he said:

"It has been said by illustrious leaders of the Republican party that a modification of the tariff is not a remedy for the trusts. I take this opportunity to say for the Republicans of Iowa who have adopted the platform which I have read that they wholly agree with this view, and have not proposed to effectually repair the wrongs that are perpetrated by unlawful combinations, by any adjustment or abatement of the tariff schedules. No thinking man can doubt that large corporations are absolutely necessary to carry on, with convenience and economy, the growing business of the world, and however great a corporations becomes, if it develops in a natural way, through the recognized laws of commerce and through the energy and sagacity of its managers against the competition of others engaged in like business, it ought not to be the object of disfavor or condemnation; on the other hand it should be the subject of just pride and mark the rising tide of a better civilization.

"These are not the corporations which excite public indignation and which whether we desire it or not, must be examined and discussed in this campaign. The corporations or combinations to which the Iowa platform refers are those which have been brought together—not to outstrip competition in a fair race, but to destroy competition by the actual obliteration of independent establishments, and which accomplish their purpose either by purchase or piracy. They are invariably accompanied by the issuance of vast quantities of stocks which have no basis save the audacity of promoters, and which serve two ends equally objectionable. First, to enrich beyond comprehension the movers of the nefarious enterprises; and, second, to cloak the enormous profits which may be extorted from their hopeless victims.

"While I believe that the plan they adopt is as weak as it is vicious, and that the ordinary operation of the immutable laws of commerce would in the course of time overthrow them, nevertheless it is the duty of the government to hasten their disintegration and downfall by every power within the scope of organized society. Personally I am of the opinion that the two direct remedies to be employed are, first, to prevent the issuance of stock in excess of the money or the real value of the property contributed to the corporation; and, second, to define more clearly the crime of establishing or attempting to establish a monopoly.

"There are but two forces that can be trusted to fix price—competition and the regulation of organized government. The latter is totally inadmissible, and we must preserve the former. It is therefore the high and imperative duty of the government to so adjust its laws that there will be the least possible motive for the destruction of competition.

"The experience of the past few years has shown us that ambitious spirits are able to establish and maintain monopolies in some of the important products of industry, and with respect to these things it is self-evident, that the tariff duties in some measure are a shelter, because they deprive us of the opportunity to invite competition from other lands.

This is a Republican, not a Democrat, who is talking, and a Republican protectionist, too, but one who recognizes the fact that while there are legitimate corporations which do business on honest business principles which are entitled to recognition and encouragement, there are also illegitimate, grasping, extorting combinations which come under the provisions of the anti-trust laws and should be held amenable and restrained, or destroyed if necessary. Depriving such corporations of the protection they have under the Dingley tariff may not be a complete remedy, but it would be one of the remedies. In speaking of this he said:

"Fortunately, while the combinations produce many things, they have as yet been able to secure monopolies in few things, but avarice is persistent, and what may be accomplished in the future no man dare predict. Therefore the Republicans of Iowa say that when trade in any protected commodity reaches the point of a single producer the tariff duty upon that commodity shall be suspended until the laws of business resume their rightful sway. There is here no menace to lawful industry, no threat against the proper employment of capital. Monopoly is a crime that men need not commit, and the suspension of the tariff during the existence of the offence will withdraw at least one motive that induces greed to violate the laws of the land. Protection is the essential principle of Republicanism, but competition is the eternal law of industrial life. We should, and will, enforce both; but if temporarily wealth ignores the latter and erects itself into monopoly, then the consumer has a better right to competition than the producer has to protection. Competition we must have—that of the republic if possible; that of the world if necessary.

"It is well-nigh inconceivable that contention shall long exist upon a proposition so full of justice and so emphatically taught by the experience of mankind To enforce it cannot injure the weaker competitorr of combinations, for it is not to be applied until competitors cease to exist. It is not answered by the statement that the combination may be enlarged and embrace the whole world of production. So it may, but I reply, the progress is more difficult, the bonds of union less secure. It is a menace not so imminent; and if it be true that 'sufficient unto the day is the evil thereof,' it is yet more true that sufficient unto the evil is the day thereof. I leave it in your hands with one question. If Congress had the power to grant monopolies, do you think it would be wise to confer upon a single corporation the exclusive right to manufacture steel rails, barbed wire, tin plate, or glass and at the same time impose heavy duties upon their importation?"

Here is an effective answer to Secretary Shaw, when he says that repealing the tariff duties on trust controlled articles would injure the other manufacturers more than it would the trusts; that it would, in the effort to restrain and punish the guilty, be punishing the innocent more than the guilty. That's what Secretary Shaw says, and scores of Republican speakers echo him and repeat it with as much assurance and emphasis as if it were an original discovery. But Secretary Shaw knows better; his echoers know better. They know the effect that competition would have in bringing these monopolistic combines within bounds, but standing by the combines as they do they adopt this fraudulent line of argument to humbug the people. But they are not doing it much.

Mr. B. R. Collins and Miss Clark, of Norfolk, Va., aged respectively 60 and 49 years, after being engaged and courting for thirty years, concluded that it was time to quit their foolishness, called in a squire and got married. Some people are never in a hurry.

A CRY OF DISTRESS.

For some time leading Republicans have been very active in their efforts to get the coal barons to make some concessions to the striking miners, to end the strike and the coal famine which has already become such a serious matter, so serious that it could scarcely be exaggerated.

We are not disposed to attribute all the interest they are taking in this matter to solicitude for the party, although it is a well known fact that they are very much concerned about this and fear that a continuance of the strike, which the coal magnates could stop if they would, and a continuance of the coal shortage will result in their party's defeat in November, but some of them candidly acknowledge this, as Congressman Grosvenor does in the following telegram to Clement A. Griscom—a veritable cry of distress:

Public sentiment in this section bitter against coal operators beyond description. If continued it will assure a Democratic Congress and financial ruin. Mr. Morgan, if he interfere and effect settlement now, would establish himself in a position stronger than any living American.

"The result would react favorably upon all his real enterprises. It would be better from a mere selfish standpoint than all the anthracite coal in the country is worth, but from the humanitarian standpoint be a benefaction.

"I go home to-morrow to face nine thousand mad coal miners, with a miner candidate against me."

General Grosvenor is a confident, aggressive campaigner. He is a candidate for re-election, and he would never have uttered this wail of woe if he didn't see trouble ahead and feel the need of help.

And yet in this cry the selfish, sordid element enters and figures. He appeals to Mr. Morgan's selfishness by reminding him that the ending of the strike "would re-act favorably on all his real enterprises" and "would be worth more than all the anthracite coal in the country is worth," and lastly, "from a humanitarian standpoint," his successful intervention would be "a benefaction," which, under the circumstances, if Gen. Grosvenor was not so scared and so much alarmed at the facing of those "nine thousand mad coal miners," with "a miner candidate" against him, should have been the first consideration. It is, however, a very loud, shrill and significant squeal, from a self-confident, doughty champion who seldom squeals.

Mr. John Markle, one of the Pennsylvania coal barons, doesn't think the striking miners ought to be allowed to play football. Some of them were having a game a few days ago when he asked the captain of a company to drive them away. The colonel heard the request and answered that the players were not doing any harm and to interfere with them might cause a scrap that would make it necessary to shoot a dozen or fifteen of them. That made Mr. Markle hot, and he replied that they would have to shoot 150 of them before they went to work. Markle is a daisy.

A story comesf rom Tennessee that an old darkey there who had been informed that he had been allowed a pension of $16 a month refused it, saying that he wanted to be independent even of the government, Properly called a "story," no doubt.

CRAIG AND PRITCHARD.

The joint canvass between Messrs. Craig and Pritchard closed at Asheville Saturday, and ended as it began, with mutual compliments, Mr. Craig referring to Mr. Pritchard as the "ablest living Republican in North Carolina," which, although intended as a compliment to Mr. Pritchard, is not much of a compliment to the living Republicans in North Carolina, while Mr. Pritchard reciprocated by referring to his competitor as his "logical successor in the Senate in the event the Democrats carry the Legislature," and "the ablest exponent in the State of Democratic principles." This is very courteous and very nice, although there are a good many people who heard the joint debates who will not agree fully with either of them.

Mr. Craig is able and eloquent and maintained his side of the debate with spirit and with much credit to himself, while Mr. Pritchard was cunning and unscrupulous, and rehashed the arguments for protection and in defence of his party with as much assurance as if he really believed in them. He was not above taking some petty advantage when he could as is shown by his repeatedly throwing at Mr. Craig the fact that his brother had signed a petition against the removal of a negro postmaster in Bertie county, as if Mr. Craig was responsible for what his brother may have done without his knowledge. That was small, and would be small in a man making less pretentions to fair play and chivalry than Mr. Pritchard does.

Now that the debate has closed there is some question as to which gained by it. Our opinion is that neither has gained, and that the question of Pritchard's successor will be decided without being affected in any way by this joint canvass. It may have enabled Pritchard to have larger audiences to talk to than if he had appeared alone, but that doesn't matter for in the event the Republicans and "independents" carry the legislature he would be his own successor anyway, if he hadn't made a speech in the campaign.

The Democratic party didn't lose anything in that joint canvass, for Mr. Craig acquitted himself too well for that, and it is shown by the fact that Mr. Pritchard so often lost his temper and his head when the demonstrations by the people showed the predominance of Democratic sentiment. If he were asked his honest opinion now and gave it he would acknowledge that he does not feel anything like as confident of re-election as he did when he started out in the tilt with Mr. Craig.

— Raleigh *News and Observer*: Few negroes are registering in Raleigh and those who do come in under the "read and write" clause. Ferry Noble, a colored barber, came in under this clause as he is able to read and write the Constitution and can recite much of it from memory. Sheriff Cook received word that Winn had left the train Friday and was making towards Fayetteville, accompanied by his son. Winn killed his nephew, in Wayne county, last June and was bound over to court for trial on the charge of murder. He was subsequently released on habeas corpus proceedings, giving a bond for $2,500. Six weeks ago he jumped his bond and has since been at large.

COTTON MARKETS

By Telegraph to the Morning Star

NEW YORK, Oct. 13.—Cotton market opened easy at a loss of one to six points. Selling increased the decline five and seven points. Later there was a rally of three to six points with the market finally quiet and steady at unchanged prices to a decline of four points. The early weakness was the result of a combination of adverse influences, including a Liverpool decline of six to seven points, generally favorable weather reports from the cotton belt, indications of large receipts, the still unsettled strike in the coal regions, weakness in the stock market and tightness in money. The rally followed frost predictions for the western belt, a disposition to make lighter estimates for receipts to-morrow, and numerous reports to the effect that the coal strike was at last in a fair way for a speedy settlement. The enormous exports of late were also a factor in the influences leading to the purchase of cotton in the afternoon. The exports in the six weeks of this season foot up 973,c01 bales, this being 377,968 in excess of last year, with consolidated stocks now 15,253 bales less than last year's after a crop movement of over 500,000 bales greater than last year's. Total sales of cotton were estimated at 300,000 bales.

ATLANTA, Ga., Nov. 18, 1900.

We have handled Dr. Moffett's TEETHINA (Teething Powders) ever since its first introduction to the public and trade as a proprietary medicine, and our trade in it has steadily increased from year to year until our orders now amount to two or three hundred gross per year, which is a very strong evidence of its merit and the satisfaction it is giving to the mothers of the country, for they say nothing so effectually counteracts the effects of the summer's hot sun or overcomes so quickly the troubles incident to teething.

HOMEMADE DRESSES.

THE SHIRT WAIST AND HOW TO MAKE IT IN MANY STYLES.

A Model Upon Which Many Variations May Be Based—Clear and Simple Directions For the Inexperienced Seamstress to Follow.

[Copyright, 1902, by American Press Association.]

This shirt waist is the model upon which all others are founded, and wherever one desires to make changes they can be made without in any way altering the form of the model. There are two ways of making this as a model, one being to have a snug and well fitting lining to which the outside is gathered and the other being just the loose tucked and gathered shape, as is seen in the illustration.

The way in which the tucks are laid, whether diagonal or cross, short or

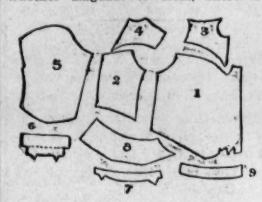

DIAGRAM OF MODEL SHIRT WAIST.

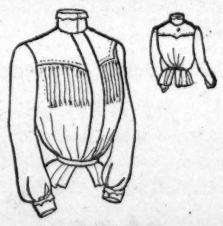
long, in clusters or all of one size and width apart, depends entirely upon the taste of the dressmaker, and if several waists are to be made it is well to vary the manner as far as possible. The best way to have them is straight, when the figure is rather stout, while slender figures look well in the yokes, but each is quite at liberty to suit herself.

The pattern of this waist is in sixteen pieces—viz, two front yokes, one back yoke, two front pieces, one back, two basques, one belt, one undercollar, two outside collars, two sleeves and two cuffs. To make a waist of goods thirty-six inches wide requires three yards and two yards of lining of the same width if the waist is to be lined.

If made of flannel or cashmere or any of the suitable materials for such garments, excluding cottons, lining is better and should be cut and made separately from the outside, it becoming thus something like a corset waist to hold the figure in shape. It can be stiffened with featherbone, which comes ready prepared for application.

Galatea cloth makes a handsome waist, so we will consider that as a cotton material thirty-six inches wide. The first thing is to cut the fronts, marked No. 1 on the diagram. If the waist is to be tucked very closely, it is better to cut off the length first and run in all the tucks, after which cut out the shape around the arms and down the top to fit the yoke. The middle fold projects up as far as the top of the neck on to the yoke. When this is done, gather the upper part of the front and set the yoke on, being careful that the yoke falls over the other part smoothly. There must be no bulge. Fold the centerpiece over the yoke and stitch yoke and front together and then stitch the middle fold all the way down. After this sew the back yoke to



FINISHED WAIST.

the rest in the same manner, being careful to get the fold of the back directly even with the point of the yoke. There are no gathers at the top of the back where it joins the yoke.

If the waist is to be lined, the lining previously finished is now to be basted to the outside all around, neck and sides; also the bottom, as the lining should have been tried on to be sure that it fits. In the center of the back at the waist line four small folds are laid in the outside and drawn down closely to be sure that the waist will not draw. If the sleeves are to be lined, the lining is cut all in one with the outside and sewed up in with them.

The cuffs are the same in all the waists where bishop sleeves are worn, and that will be very nearly all the shirt waists, of whatever material. The cuffs are cut all in one piece, in such a way that the wrist part is straight, while there is a cuff made in one with it, cut in points, as can be seen in the diagram. The wrist is to be measured and half an inch allowed for seams. The cuff part is one inch shorter and double notched. The cuffs should be interlined with stiff linen, no matter what kind of material is used for the waist. When they are basted and sewed around, they are to be turned and stitched along the edge. These cuffs are the distinguishing part of the new waist. They button at the wrist.

The collar has a curved band to fit closely, and two half collars are made, with notched points, and set at the top of the undercollar to fall over. Many ways can be invented to produce an original effect by the use of lace, embroidery or some other trimming.

The basque portion is arranged so that it may be left off, or, rather, left to go under the skirt or be worn outside. It is made just large enough to reach around the hips and is four inches deep, with an inverted plait at the center. OLIVE HARPER.

Searching For Knowledge.

"I say, pa," began little Clarence Callipers, with the rising inflection of one who earnestly desires to acquire important information, "what"—

"Oh, I don't know!" replied his long suffering sire wearily.

"Yes. But the question I wanted to ask isn't foolish, pa."

"H'm! If it isn't foolish, you may ask it. But, remember, just one question, and no more."

"Well, pa, there are two of 'em that I want to ask. One is, Which is the smartest, the man who knows enough to know that he don't know much or the man who knows enough to look as if he knew everything? The other is, If the end of the world was to come and the earth be destroyed while a man was up in a balloon, where would he land when he came down? And, pa, I don't know which one of 'em to ask."

The lignite coal deposits of North Dakota and Montana are rapidly being developed and are destined to prove a source of immense wealth to those states. The only drawback to its more general introduction is that it seems to require stoves and furnaces of special construction in order to secure perfect combustion.

This will be when he buys it for just exactly what it is and not disguised under the name of butter. Buying it as butter, he pays just about twice as much for it as he would if sold under its own name. The poor man has really more cause to kick than the dairyman at the fraud as now carried on.

We find that peas of all kinds do better sown early than when sown at regular intervals during the spring, depending upon the difference in time of maturing of the several varieties to afford a succession of pickings. Peas like cool, moist conditions while developing. For a family garden we would sow about four kinds, which, if properly selected, will give a good supply of peas from the middle of June to the last of July.

WILMINGTON, N. C.

TUESDAY MORNING, OCTOBER 14.

IN THE COAL STRIKE REGION.

The Day Passed Without Serious Trouble. Operators Claim More Collieries Resumed—Denied by Mitchell.

By Telegraph to the Morning Star.

WILKESBARRE, PA., Oct. 13.—What was looked upon as an important day in the matter of resumption of work in the coal mines passed without any serious trouble, and each side to the controversy is claiming a victory. Reports received here from coal companies all over the region are to the effect that at least twelve collieries and four washeries started operations to-day. President Mitchell in a talk with the correspondents asserted that reports received by him from his lieutenants in the field showed fewer men were at work to-day than last week.

It is quite evident that extra efforts were made on both sides to gain an advantage. The soldiers of the Third brigade were sent into the outlying mining towns in this region long before starting up time to patrol the roads leading to the collieries. In some places the soldiers were scattered in twos and threes along streets and on street corners, but they were not compelled to rescue any one from strikers. The company superintendents are authority for the statement that for the past two days the mine workers have been again making house to house canvasses all over the entire territory, holding the men in line, and that if it were not for this method of keeping the men from work there would have been a large increase in the number of employes at work.

In an interview to-night President Mitchell summed up the general situation as follows: "I have heard from every point in the coal region to-day and my information is to the effect that fewer men were at work to-day than there were last week. There were desertions from the camps at Scranton, Hazelton, the Panther Creek Valley and Shamokin. The report that twelve collieries has resumed operations is not true."

SHAMOKIN, PA., Oct. 13—Unknown persons this morning tried to blow up a Reading railroad bridge between Cameron colliery and Uniontown. A charge of dynamite was set off in the foundation wall, but the explosion did not cause much damage. A company of the Tenth regiment hurried to the scene and are still on guard.

HARRISBURG, PA., Oct. 13.—Private Secretary Garwig said to-night that Governor Stone has received no communication asking him to make a requisition on President Roosevelt for Federal troops for the anthracite coal regions.

WILKESBARRE, October 14.—When President Mitchell was shown the bulletin that the operators had agreed to arbitration he refused to make a statement to night.

REVOLT IN SAN DOMINGO.

Haytien Revolutionists Won a Victory on Saturday—Government Gunboat Sunk—The Crew Drowned.

By Cable to the Morning Star.

CAPE HAYIEN, HAYTI, Oct. 13.—General Deschamps, the former governor of Porto Plata, San Domingo, has taken up arms against the provincial government of Santo Domingo and risings have occurred at Monte Christi, Dajadon, Savanelt and Cuayabin.

The Artibonite (revolutionary) army won a brilliant victory Saturday at Montrouis and the provisional gunboat Nouvelle Voldrogue was sunk by the fort at St. Marc. In the land fight the troops of the provisional government lost 115 men killed, one field gun, a rapid-fire gun and many new rifles.

It is reported that the gunboat's crew was drowned. The Nouvelle Voldrogue was recently commissioned to enforce the blockade of the revolutionary ports.

The Firminists at Limbe are maintaining the advantage which they recently gained by defeating General Nord, the government commander, in skirmishes which have taken place since then.

The United States cruiser Cincinnati left here yesterday morning for St. Marc.

Engagement in Progress Between Government and Revolutionary Forces.

By Cable to the Morning Star.

WILLEMSTAD, ISLAND OF CURACOA, Oct. 13.—An important engagement began this (Monday) morning near LaVictoria, between the forces commanded by President Castro, of Venezuela, numbering 4,100 men, with fifteen guns, and the revolutionary forces commanded by Generals Matos, Mendoza, Peraloza and Riers, about 6,000 men and twenty-two guns. At Valencia, two hours march from La Victoria, the sound of fierce cannonading can be heard.

Vice President Vincenta Gomez left Caracas to-day on a special train with 800 men and a large amount of ammunition to reinforce President Castro.

NEW ORLEANS STRIKE ENDED.

Differences Between Officials and the Car Men Satisfactorily Settled.

By Telegraph to the Morning Star.

NEW ORLEANS, Oct. 13.—Street car traffic was partially resumed to-day on the lines of the New Orleans Railways Company, which have been affected by the recent strike, the last differences between the officials and the car men's union having been settled this morning. The names of the strikers charged with obstructing the United States mail cars during the strike have been submitted to the United States grand jury. The men were ordered to give $1,000 bond each.

NO SETTLEMENT OF COAL STRIKE.

According to the Operators No Reasonable Basis Has Yet Been Suggested.

MANY CONFERENCES HELD.

Unfounded Rumors—J. P. Morgan Declines to Interfere—Operators Urging Gov. Stone to Call Upon the President for Troops.

By Telegraph to the Morning Star.

NEW YORK, October 13.—No settlement of the strike in the anthracite coal regions has been reached and, according to the statements of three leading operators, no reasonable basis has yet been suggested to them. Any proposition embracing a ten per cent. increase will be ignored.

It was another busy day for the operators. Before noon all of them, except President Baer, were in conference at the office of the Erie road. Their talk lasted over an hour, but no statement was made for publication. Following this conference, Chairman Thomas of the Erie road and President Truesdale of the Lackawanna, were closeted with J. P. Morgan at the latter's office. Mr. Morgan would not talk about the situation, nor would he say anything regarding Secretary Root's visit to him last Saturday.

In spite of the countless reports to the contrary, there is the best authority for stating that Mr. Morgan has up to this time taken no active part in any settlement negotiations. He believes that the matter rests with the coal presidents, and is reported to have said as much to President Roosevelt through Secretary Root last Saturday.

Unfounded Rumors.

Rumors that the strike was ended were heard in financial circles, and in the closing hour the stock market rallied very generally from its early depression. These rumors were circulated for the most part by brokerage houses with Western connections. The conservative element paid little heed, and denials of a settlement were authorized by representatives of the Lackawanna and the Ontario and Western railroads.

In all probability the operators will hold their regular weekly meeting in this city to-morrow. President Baer is expected to attend but whether or not this meeting will produce any results is at this time a matter of conjecture.

Morgan Declines to Talk.

J. P. Morgan declined to-day to talk about his meeting with Secretary Root last Saturday. He would not discuss the coal strike in any way, except to say that he had heard of no change in the general conditions.

There is good authority for the statement that Secretary Root did not bring an ultimatum from President Roosevelt as reported, but rather the Secretary was directed by the President to ask Mr. Morgan to devise some means to settle the strike. Mr. Morgan, it is said, took the President's request under advisement and later reported to Secretary Root his inability to do anything in the matter.

Operators Want Federal Troops.

It is known that on Friday last, one of the leading operators wrote to the Pennsylvania authorities demanding that the Pennsylvania miners be furnished with better protection. There came a prompt reply, stating that the entire Pennsylvania militia had been called out, and that the situation was well in hand. Apparently the operators are not of that opinion, it is known that another letter has been forwarded to Governor Stone, urging that he call on President Roosevelt for Federal troops.

The report that Mr. Morgan had assured Secretary of War Root that the miners would receive a ten per cent. increase upon returning to work, was answered by President Thomas' secretary as follows: "No ten per cent. increase has been granted, nor considered. This report must be denied emphatically."

Mr. Olyphant also said that he knew nothing about a ten per cent. increase.

PHILADELPHIA, Oct. 13.—The annual meeting of stockholders of the Philadelphia and Reading Railway Company was held this afternoon in this city. The annual report was submitted and unanimously adopted. President Baer and the old board of directors were re-elected. The meeting was secret and was presided over by Mr. Baer.

Powerful Influences at Work.

WASHINGTON, Oct. 13.—Nothing has been done about the coal strike in Washington to-day. In fact, it appears that there is nothing further that the administration can do at present. The appeals made to both presidents and miners having proved unavailing there is nothing further in the way of persuasion that the President can do. It has been demonstrated also that no effective legal measures can be taken. It is believed that further appeals to either side by the President would be unavailing. No doubt some recommendation by the President will be contained in his annual message to Congress. By that time he will have further information on the situation which will be gathered by Carroll D. Wright, commissioner of labor, and such other men as may be designated to assist him in ascertaining the actual situation in the mining regions.

While there is nothing tangible in sight here, there is a possibility that the strike may be settled by forces at work in New York and elsewhere. It is understood that powerful influences are being exerted to this end. There is reason to believe that the coal operators may bring about a settlement and make it appear that no outside influence either by the President or Governor Odell and the senators from Pennsylvania and New York was effective.

COAL OPERATORS AGREE TO ARBITRATE.

Result of Conference at the White House. The President to Appoint a Commission, to Whom Issues Are Left.

By Telegraph to the Morning Star.

WASHINGTON, October 13.—Secretary Cortelyou, by authority of those present at the White House, made public the following authorized statement concerning the conference:

"Mr. J. Pierpont Morgan came to Washington with his partner, Mr. Bacon, at the request of the coal companies, who desired that as a matter of courtesy their statement should be shown to the President before it was made public. Having been laid before the President by Mr. Morgan, it is now given to the press."

To the Public:

The managers of the different coal properties, comprising the anthracite coal fields, wish their position in the present strike to be understood and therefore make the following statement of facts:

There are in the anthracite regions about 75 operating companies and firms, and 147,000 miners and work men (of which thirty thousand are under age) comprising some twenty nationalities and dialects.

Of these workmen possibly one-half belong to the United Mine Workers' Union of which Mr. John Mitchell is president. That organization was originally formed in the bituminous coal region, and three-fourths of its members are miners of bituminous coal and bituminous coal is sold in active competition with anthracite coal. The remaining workmen in the anthracite fields either belong to no union whatever, or do not belong to the Mine Workers' Union.

The present strike was declared by the Mine Workers' Union on the tenth day of May, 1902. Since that time many workmen not belonging to or not willing to follow that organization were working in and about the mines. From seventeen to twenty thousand are now at work.

The coal companies believe that the wages paid in the coal regions are fair and full, and all that the business in its normal condition is able to stand if the capital invested is to have any reasonable return. The profits have been small, several of the companies have become bankrupt and been reorganized several times. Several have never paid dividends, and the dividends of the others have been a small return for the capital invested. It is not, however, the purpose of this statement to discuss the question. The undersigned are not, and never have been unwilling to submit all questions between them and their workmen to any fair tribunal for decision. They are not willing to enter into arbitration with the Mine Workers Union, an organization chiefly composed of men in a rival and competitive interest, and they are not willing to make any arrangement which will not secure to the men now working, and all now or hereafter wishing to work, whether they belong to the Mine Workers Union or not, the right and opportunity to work in safety and without personal insult or bodily harm to themselves or their families. For these reasons the arbitrations heretofore proposed have been declined.

The coal companies realize that the urgent public need of coal and the apprehension of an inadequate supply for the approaching Winter calls for an earnest effort to reach a practical conclusion which will result in an increased supply, and the presidents of the companies desire to make every effort to that end which does not involve the abandonment of the interests committed to their care and of the men who are working and seeking to work in their names. The responsibility they must bear and meet as best they can.

They therefore re-state their position: That they are not discriminating against the United Mine Workers, but they insist that the miners' union shall not discriminate against or refuse to work with non-union men; that there shall be no restriction or deterioration in quantity or quality of work, and that owing to the varying physical conditions of the anthracite mines each colliery is a problem by itself.

We suggest a commission be appointed by the President of the United States (if he is willing to perform that public service), to whom shall be referred all questions at issue between the respective companies and their own employes, whether they belong to a union or not, and the decision of that commission shall be accepted by us.

The commission to be constituted as follows:

1. An officer in the engineer corps of either the military or naval service of the United States.

2. An expert mining engineer, experienced in the mining of coal and other minerals and not in any way connected with coal mining properties either anthracite or bituminous.

3. One of the judges of the United States courts of the eastern district of Pennsylvania.

4. A man of prominence, eminent as a sociologist.

5. A man, who by active participation in mining and selling coal, is familiar with the physical and commercial features of the business.

It being the understanding that immediately upon the constitution of such commission in order that idleness and non-production may cease instantly, the miners will return to work and cease all interference with and persecution of any non-union men who are working or shall hereafter work. The findings of this commission shall fix the date when the same shall be effective, and shall govern the condition of employment between the respective companies and their own employes for a term of at least three years.

[Signed.] Geo. F. Baer, Pres. Phila. and Reading Coal and Iron Company, Lehigh and Wilkesbarre Coal Company and Temple Company; E. B. Thomas, chairman Pennsylvania Coal Co; Hillside Coal and Iron Company; W. H. Truesdale, president Delaware, Lackawanna and Western Railroad Company; T. P. Fowler, president Scranton Coal Company, Elk Hill Coal and Iron Company; R. M. Olyphant, president Delaware and Hudson company; Alfred Walters, president Lehigh Valley Coal Company.

The statement was read to the President as an act of courtesy before being given to the press.

The Georgia railroad engineers, claiming to have support of the engineers in 9,000 miles of railway in that section, have given public notice that if a petition by them for mileage wage scale instead of per diem is not granted by October 23rd they will strike, intimating that the engineers on connecting roads will go with them if necessary.

It is said unofficially that the British government will ask Parliament to authorize a Transvaal loan of $150,000,000 or more, to be guaranteed by the Imperial Government.

TWO AERONAUTS DASHED TO DEATH

Fatal Accident to a Dirigible Balloon Yesterday Near Paris, France.

A HORRIBLE CATASTROPHE.

The Wire Ropes Attaching the Car to the Balloon Gave Way and the Car With Its Occupants Fell to the Ground from a Great Height.

By Telegraph to the Morning Star.

PARIS, Oct. 13.—De Bradsky, aeronaut, and his engineer, Morin, were killed by falling from a dirigible balloon to-day.

The balloon started from the Aerostatic station at Vaugirard, a suburb of this city, at 7:55 A. M., on a trial trip. After preliminary manœuvering with a rope attached, DeBradsky released the balloon and proceeded southward at a height of 300 or 400 feet. The propellers of the machine appeared to work well. The rudder, however, was not quite successful. At about 9:20 the balloon had returned to above the point of the departure and then it gradually mounted higher and higher, until it disappeared in the clouds. The prefect of police later received a dispatch announcing the fall of the balloon car near St. Davis, five and a half miles from the center of Paris, and adding that its two occupants were killed. The accident occured at about 9:30. When the balloon was above Stains, near St. Denis, the ropes attaching the car to the baloon broke for some unknown cause and the car with its occupants, DeBradsky and Morin, were dashed to the ground and the aeronauts met instantaneous death. The balloon itself disappeared in the clouds. When the balloon arrived over Stains, the aeronauts called to some workmen in the fields, asking the direction of Patin. DeBradsky and Morin were seen moving about the car. Suddenly one of the wire ropes broke and then another gave way, and the car, weighing 880 pounds, crashed to the ground, burying the aeronauts beneath it. They were crushed, their legs broken and their faces bloody, but they were not disfigured. The bodies were taken to St. Denis.

The catastrophe sent a thrill of horror through Paris, following the disaster to the Brazilian Aeronaut Severo, who was killed May 12th last, and whose balloon started from the same shed in a southern quarter of Paris as did DeBradsky's balloon to-day.

The principle of the latter's ship had been warmly discussed and its ascent was awaited with the keenest interest. A number of aeronauts, friends of DeBradsky, and the latter's wife were present at the start. His wife, though anxious that her husband would demonstrate the success of his invention, witnessed his departure with considerable emotion, especially as the spectators' conversation turned on the fatal ending of Severo's experiment.

DeBradsky first tried the ascensional screw, situated below the car, and the airship, held by ropes, rose easily and maintained its equilibrium. DeBradsky was satisfied and said he would manoeuvre over the drilling ground. A whistle was blown, men released the ropes, the propelling screw behind was set in motion and the airship was pointed in the proper direction, when suddenly a southwest wind sprang up and the airship swerved to the northeast instead of to the northwest. Crossing the main boulevards, the aerial craft executed a number of evolutions, but continued northward with the wind, eventually disappearing over the great white basilica of the church of the Sacred Heart on top of the hill of Mont Martre. The aeronaut's wife and their friends waited at the shed from 8 to 10 o'clock and grew anxious at his prolonged absence.

When the balloon was perceived at an immense height this increased their anxiety, as it was known the airship was never intended to rise to such a height. It was, however, merely the inflated envelope, which drifted back across Paris after the accident had relieved it of the weight of the car. A few minutes later a telegram arrived with the news of the disaster.

DeBradsky was a Hungarian baron, 36 years of age, rich and clever, and had been in the diplomatic service. He made his first ascension in 1901. Morin was his engineer. He leaves a widow and three children.

LaChambre, the constructor of the airship, says he had no confidence in the mechanical part of the airship, but says the balloon had perfect stability and constituted real progress, inasmuch as there was no pitching or sudden shocks. The defects were that the car was too light and that the motor and guiding screws were too weak.

TICKET SCALPERS.

A Decision of Sweeping Importance to the Railroad Passenger Business

By Telegraph to the Morning Star.

WASHINGTON, Oct. 15. A decision of sweeping importance to ticket scalpers and the railroad passenger business generally was delivered to day by Justice Hagner, of the Equity Court of the District of Columbia, who permanently enjoined thirty three of the local ticket brokers from selling the Grand Army special excursion tickets issued by the Pennsylvania, Southern, Baltimore and Chesapeake and Ohio railroads. The defence of the brokers was that they were pursuing a legal licensed brokerage business and that the railroads in combining in the establishment of a joint ticket agency here during the encampment for the vising of return tickets, etc., violated the Sherman anti-trust law. The court held that the tickets were sold to the purchasers in the presence of a witness and were absolutely void when used by any other than the original purchaser.

A WORD TO FARM TOILERS.

PAINE'S CELERY COMPOUND

The Home Friend of the Farmer and His Family in the Autumn Season.

After the labors and toils of the summer time, and harvesting of crops in the early autumn, many of our farmers, their wives, daughters, and sons, find themselves in a condition of health demanding careful attention if suffering is to be avoided later on. Many experience kidney trouble in some form; with some the liver is torpid; there is biliousness, nausea and vomiting, with loss of appetite and depression of spirits. Thousands who have been exposed to cold, damp winds and rains while toiling in the harvest fields, now feel the twinges of terrible rheumatism; others run down by worry, overwork and irregular dieting, are tormented with the pangs of dyspepsia.

To the thousands of rundown, sickly and half dead men and women in farm homes we recommend with all honesty and confidence the worker's friend, Paine's Celery Compound, the only medicine that can quickly and fully restore strength to the weak body and vigor to the muscles. Paine's Celery Compound tones the stomach; it removes poisonous acids from the blood which cause rheumatism; it feeds the weak and diseased nerves and banishes neuralgic toriures; it purifies the blood and gives true vitality and life. The use of Paine's Celery Compound in autumn means the establishing of a perfect physical vigor to withstand the rigors of a severe winter.

COTTON MILL MERGER.

Huntsville Mills Sign Agreement—Merrimac Company Refuses.

By Telegraph to the Morning Star.

HUNTSVILLE, ALA., Oct. 13.—Seven Huntsville cotton mills have signed the agreement to enter the Southern Textile Company, which has been recently formed in the South.

The Merrimac Manufacturing Company, which expects next year to spend more than a million and a half dollars on new mills here, and the Dallas mill, that has spent $600,000 recently in additions, have, it is said, refused to become parties to the merger. The Madison Spinning Mills, controlled by the Dallas Mill will also continue to operate independently.

Time Proves All Things.

Benjamin Franklin said the sun stood still and the world moved around. No one believed it then; now every one believes it.

In time past I said I intended to make Wilmington's Big Racket Store go to the top. No one believed it then, and now, judging from the amount of business we are doing and the number of customers we handle, the people must believe we are on the right road.

The keystone to our success in the past has been in selling good values and honest goods and guaranteeing satisfaction at the lowest prices. Our large store looks like a bazaar. The piles and piles of goods that are strung up and stuck up and set up to show up is one of the evidences that we are in the race to stay. Plenty of new goods received every day by us, and the managers in each department vie with the others in trying to get the newest and prettiest goods in their stock. Our Shoe stock, which is managed by Mr. E. Z. Mitton, has received large shipments of new goods this week.

Ladies' nice stylish solid Leather Shoes, in button or lace, we are selling at $1 a pair. Men's oil grain Creole Standard, $1.25 value, we are selling for $1.

The world renowned Battle Axe Shoe—acknowledged by the school boys and girls and their fathers and mothers to be the best shoes sold are now on sale at the Racket Store, prices $1 to 2.50 a pair.

A big line of new boy's shoes, best styles; tip top goods, $1 to $2.50 a pair.

Wolfe Bros.' Spring heel shoes, none better every pair guaranteed by factory to give service and satisfaction, all leather 50 cents to $1 25 a pair.

Women's pebble domestic shoes, solid sole, at 90 cents and $1.

5,000 shoes to fill your memorandum with. A few pair of Greenwald's fine Ladies Shoes to sell yet, also plenty of Greenwald's children shoes left.

In Men and Boy's Clothing we claim to be the Champion Clothing House of the town; we sell standard goods at low prices.

We have 500 Boys suits with knee pants that run in prices 75 cents to $5.00. For $1.98, $2.25 and $3.50 you can get an elegant suit for a boy any size. Also a nice line of young men's suits, 17 years to 21 that are worth $2.50 to $7.50 a suit, and for men we defy competition. In their stock we have 3000 suits which fill in a floor space 25 feet by 120 feet and every table filled up. ¶ We have suits for $1.98, good well made goods and from that up to $20.00.

I think I can fill your order and fit you up. We have a tailor that does our cutting and when a suit doesn't fit, we make a fit. We guarantee satisfaction.

Good all wool black suits at $5 a suit. Beautiful worsted suits for $7.50, $10 and $12.50. Extremely handsome suits for $15, $16.50, $18 and $20. You are the wearer and we are the seller. Come to see us and see if we can't trade.

In Ladies' Dress Goods — Well, this stock is a pleasure to talk about; with so many pretty things to show; the Dress Goods salesman takes pleasure in showing them.

A full line in pretty Fall Suitings, 54, 56 and 58, all wool and high grade, $1, regular price $1.50.

French Zebulines, in black only, at $1.39; 50 inches wide.

Basket weave Suttis Cloth, in black and blue, 50 inches wide, at $1. 54-inch reversible suiting, all wool; needs no lining; in several patterns; 50c, 69c, 75c, $1 and $1.39 per yard. A plenty of cheap grades.

A plenty of cheap goods. Pretty worsteds 10c and up. Rockingham Homespun, 5c; Sea Island Sheeting 5c yard; good yard wide Bleaching at 5c and up.

500 pairs Blankets of all kinds and almost anything you can call for at The Big Racket Store. As a rule the world helps those that try to help themselves. We need your assistance. Give us another lift and we will build another store.

Yours, for business,

GEO. O. GAYLORD, PROPRIETOR,

Wilmington's Big Racket Store.

TENTH ANNIVERSARY.

This month the ATLANTIC NATIONAL BANK celebrates its tenth anniversary. During all these years its record has been one of unbroken success.

To-day its assets, $1,750,000, tower above those of any other bank in North Carolina.

To-day its deposits of $1,375,000 largely exceed those of any North Carolina bank without exception.

It has paid to its stockholders in dividends the enormous amount of $145,000, exceeding its capital by $20,000. In addition to this, there remains a surplus of $155,000. Never before has it been so well prepared to meet and satisfy the needs of its patrons as NOW. The management begs to thank the public most heartily for its generous patronage. oc 1 tf

A NOVELTY.....

In order to determine the comparative values of our daily papers as a medium for advertising, and to have the people see the Finest line of Furniture ever shown in North Carolina, and as fine as they can find in New York City. I will, during the month of October have in my store a box in which any visitor, whether a buyer or not, may place a slip on which they will write name and address and name of paper in which they saw this notice, and on the 1st of November the box will be well shaken and one slip drawn from same. The party whose name is on the slip will receive as a souvenir of this ad the Handsome Gold Musical Chair, which has attracted so much atten. Non-residents may mail their slips, which will be placed in box, but residents of city must visit the store in person.
